*Aims and Scope*

The Dagstuhl Artifacts Series (DARTS) publishes evaluated research data and artifacts in all areas of computer science. An artifact can be any kind of content related to computer science research, e.g., experimental data, source code, virtual machines containing a complete setup, test suites, or tools.

## ■ Artifact Evaluation Process

Editors, please describe your artifact evaluation process in this chapter:

- Which parties are involved?
- How is the relation of the artifact evaluation committee and the regular program committee of the conference?
- How/when are decisions made and synchronized?
